## Superintendent's Highlights

The District integrated \$327,000 worth of grant-funded technology into the instructional process during the past year.

Science, health and physical education curriculum was rewritten and K-12 standards were adopted in science and health.

A review of the strategic plan was completed and action-planning committees developed three new long-range objectives with five strategies for implementation in the fall.

District reading test scores continued to improve in the second year of our grant-funded Literacy Project.

## Progress Towards Meeting District Goals

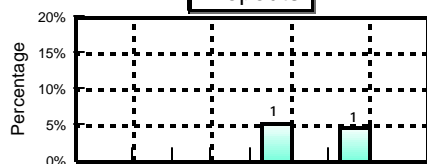

1999-00 Goals	Progress
Increase performance on standardized assessments.	The district test scores have continued to improve. In the past five years, reading scores have increased 12%, language arts scores 9% and math scores 7%.
Improve adopted curriculum guides.	The district will have completed the final year of the curriculum cycle adopted in 1995. This year new guides utilizing exiting standards were written for science and health.
Completed landscaping of remodeled facility.	Underground sprinklers and landscaping were installed in the playground and front of the school by staff and community volunteers.
Develop long-range technical education plan.	A community-based committee met and reviewed current programs, surveyed students, and made recommendations to the Trustees to enhance existing programs in family and consumer science, business, and agriculture technology. The district joined with other region two districts in the development of a professional-technical academy.
